

CHANBASHA SHAIK

Senior Java Developer | 5+ Years of Experience
chanbashaprofile@gmail.com | +91-9491644088

PROFESSIONAL SUMMARY

Senior Java Developer with 5+ years of experience in designing scalable microservices-based enterprise applications using Java, Spring Boot, REST APIs, and AWS cloud technologies. Experienced in authentication & authorization (OAuth2/JWT), distributed systems, code quality practices, and Agile development. Passionate about building secure, high-performance backend systems.

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Smarten Spaces March 2021 – October 2024

Project: Jumpree App — Fully integrated Space-Booking Application

Tech Stack: Java, Spring Boot, JPA, RESTful Web Services, Microservices, JUnit, SonarQube, MySQL, JavaScript

- Led end-to-end development across requirements gathering, system design, implementation, and production releases.
- Designed and implemented WinSCP-based file transfer integrations to process bulk data updates from external files efficiently.
- Developed and integrated multiple third-party system interfaces, including HID and EventHub, enabling seamless inter-service data exchange.
- Implemented secure authentication mechanisms — OAuth and MyID — for robust application access control.
- Collaborated closely with cross-functional teams across Space Management, User Management, Tenant Management, and Common Messaging Services.
- Authored comprehensive unit and integration tests using JUnit and Mockito, maintaining high code coverage and reliability.
- Enforced coding standards through active code reviews and static analysis with SonarQube, reducing technical debt.
- Participated in Agile Scrum ceremonies including daily stand-ups and sprint planning, ensuring timely deliverables.
- Provided SIT and UAT support — identified, analysed, and resolved defects to ensure smooth, on-time releases.

Software Engineer | L&T Infotech July 2019 – October 2020

Project: HIS — Health Insurance Exchange & Integrated Eligibility System (New Jersey State)

Tech Stack: Java, JSP, Spring MVC, Spring Boot, JPA, RESTful Web Services, Microservices, JUnit, Oracle, HTML, CSS, JavaScript

- Contributed to full SDLC — from requirements analysis through development and production deployment.
- Designed and developed web application using Java with an N-tier architecture and robust Oracle database connectivity.
- Built dynamic user interfaces using JSP, JavaScript, HTML, and CSS for citizen-facing eligibility workflows.
- Implemented reusable component classes following MVC design patterns, improving code maintainability.
- Developed the persistence layer using Spring Boot integrated with Hibernate ORM for efficient data management.
- Designed and implemented scheduled batch jobs to process client notices on a daily basis.

TECHNICAL SKILLS

Languages & Core	Java, JDBC, Servlets, JSP, JSTL
Frameworks	Spring (MVC, Boot, Data, IOC, ORM), Hibernate, JPA

Web Services	RESTful Web Services, Microservices Architecture
Databases	MySQL, Oracle
Cloud (AWS)	EC2, S3, Lambda, RDS
Testing	JUnit, Mockito, JMeter
UI Technologies	HTML, CSS, JavaScript
Web Servers	Apache Tomcat, WebSphere
Tools & DevOps	Maven, Git, SVN, Log4j, JIRA, SonarQube, PuTTY, WinSCP

EDUCATION

Master of Computer Applications (MCA)
Machilipatnam, Andhra Pradesh

Krishna University
